Image Details of Economy Botany Herbarium

Barcode: CAL0000003696

Family: [FABACEAE](#)

Scientific Name: [Astragalus strobiliferus Royle ex Benth.](#)

Collector: [D.C. Bhattacharya](#)

Country: [India](#)

Uses: [Yields a gum used as a substitute for tragacanth. Naturally exuding gum is of inferior quality, but gum obtained by making incisions on the plant compares well with tragacanth.](#)
