Image Details of Economy Botany Herbarium

Barcode: CAL0000003779

Family: BERBERIDACEAE

Scientific Name: Berberis pachycantha Bienert ex Koehne

Collector: G. King

Country: India

Uses: Berberine which is obtained from the plant is used in the disorders of the bile and urinary passages, especially in biliary and renal calculi, congestions of the abdominal and pelvic cavitis, and rheumatism. It is beneficial in scarlet fever and brain infections. It is used as a diuretic for relief of heat, thirst and nausea. In large doses it acts as a purgative whereas in small doses it acts as tonic.
